PARLIAMENT MEMBER WOULD KEEP BRYAN-FORD OUT OF ENGLAND

London, Dec. 3.—Sir Edward Cornwall, liberal member of the British parliament, today inaugurated a novel movement to keep Henry Ford or William J. Bryan from coming to England on their proposed peace mission.

Cornwall maintains that the presence here of Bryan and Ford will prove a source of irritation, and will demand that the government notify both that their visit to England for the purpose mentioned will not be welcome.

Washington, Dec. 3.—Passports to Henry Ford and several other members of the "peace party" have been granted by the state department. The papers will be good only in neutral countries.

Officials here do not try to conceal the fact that the Ford expedition may cause the department embarrassment. Many inquiries have been received from different countries asking what is the government's connection with the expedition. The party is regarded simply as tourist by the state department.

Not knowing what awaits him in Europe, Ford made his will last night, turning over all his property to his son, Edsel Ford. The head of the "peace party" announced that he will go to England and Germany, but does not expect to take his followers with him.

PREPAREDNESS MAY BE FOUGHT BY MINORITY

Washington, Dec. 3.—Administration leaders are visibly alarmed over the attitude of the Republicans in congress toward preparedness. Minority Leader Mann declares the Republicans will not support the measures if they are taken before the Democratic caucus. Leaders are convinced that a caucus will be necessary to hold the Democrats in line. It is generally recognized that the problem must be solved, otherwise the preparedness program is likely to be defeated.

"CHARLES SAYS"

The band will play every Friday afternoon in the High school Auditorium, did it ever occur to you, that this is pretty nifty.

B. P. O. ELKS PLAN MEMORIAL SERVICE

HON. E. NOBLE CALHOUN AND REV. WM. J. DREW SPEAKERS. ELABORATE MUSICAL PROGRAM.

Conforming with the beautiful custom observed by lodges of Elks throughout America, the local B. P. O. E. fraternity will assemble in the New Daytona theatre at 8 o'clock next Sunday evening and participate in the annual memorial service for departed brethren.

The members of the program committee, of which J. D. C. Morris is chairman, believe they have arranged a series of memorial service features that will not have been surpassed in appropriateness and impressive rendering on any similar occasion in this city.

The hundreds of people who recall with such genuine pleasure the magnificent oration delivered at the Elks' memorial service here two years ago by Hon. Noble Calhoun, of Saint Augustine, will be delighted to learn that he is on the program to give the eulogy next Sunday evening. In Daytona Mr. Calhoun is regarded as a speaker without a peer, especially in that realm in which he has had opportunity to demonstrate his ability. Besides an array of musical numbers calculated to please the big audience expected to attend the memorial exercises, another address is to be delivered by the pastor of the Congregational church of Daytona, Rev. Wm. J. Drew, whose local reputation as a speaker at events of this nature is an enviable one.

Included in the musical portion of the program are selections by the Crystal orchestra, the Wee-Wee quartet of New Smyrna, and Saracina's Royal Italian band, whose presence in Daytona this winter is due solely to Commodore C. G. Burgoyne's generosity and public spirit.

Following is the program for Sunday.

(Continued on Page Seven.)

PRESIDENT'S DAY AT THE PALMETTO CLUB

FIRST MEETING OF THE CURRENT SEASON WAS HELD IN THE NEW HOME ON ORANGE AVENUE.

The club year opened auspiciously at the Palmetto club on Thursday afternoon when members and guests gathered for the first time in regular session, in the pretty remodeled club home on Orange avenue.

The Palmetto orchestra opened the program of the afternoon with two well-rendered selections, "The Toastmaster" and "The Swing Song."

Mrs. Murray Lozier Stanley, president of the club, made a graceful and cordial address of greeting, welcoming the members to their rejuvenated home and giving a brief resume of its building during the past summer. Mrs. Stanley briefly but comprehensively outlined the proceedings of the 21st annual meeting of the Florida federation of clubs held in DeLand in November, giving the first day's program in detail.

The Palmetto orchestra gave two more selections, "The Rat Charmer," from the Pied Piper, and "Humoresque," by Dvorak.

Mrs. Ella O'Neill gave an interesting synopsis of the second day's proceedings at DeLand, telling of reports of the legislative committee, the endowment fund, the industrial school for girls near Ocala, and reports of individual clubs.

Mrs. E. H. Hotchkiss spoke of the musical and artistic features of the federation meetings, and mentioned with appreciation the wonderful child violinist, Eleanor Herring of Orlando; the exquisite playing of Mrs. Iva Sproul-Baker, of Miami; and the music provided by the Stetson Glee club and the vesper choir were accorded their quota of praise. Mrs. Hotchkiss also spoke of her intention of organizing a club for the study of the stars, proceeds to go to the Palmetto club.

(Continued on page seven.)

SHIPS' SEIZURE WILL BE USED TO BOLSTER ANTI-BRITISH ARGUMENTS

Washington, Dec. 3.—Senators and representatives who contemplate making an open fight for retaliatory legislation against Great Britain are today manifesting great interest in the confiscation by England of the American steamships Hocking and Genesee. The incident will be used by the displeased congressmen to prove that Great Britain has taken a position deliberately hostile to American commerce.

The protest to the English government against the Hocking-Genesee incident will be couched in very plain language, according to a department official.

U. S. HAS ASKED FOR CAPT. BOY-ED'S RECALL

New York, Dec. 3.—What effect the conviction of the Hamburg-American line officials will have on the Boy-Ed question is foremost in the minds of observers here and throughout the nation. That the German naval attache has been concerned in plots is not doubted in many well-informed quarters.

It will not be surprising should the administration at Washington ask Boy-Ed's recall by the German government.

Washington, 2:00 p. m., Dec. 3.—It is reported that after a cabinet meeting the recall of Capt. Boy-Ed will be asked.

Washington, 2:15 p. m., Dec. 3.—Secretary Lansing says he has asked for the recall of Captain von Papen and Captain Boy-Ed.

New York, Dec. 3.—Counsel for the convicted officials of the Hamburg-American line today asked the court to postpone sentence until tomorrow, to allow time to file motions. The request was granted. The defense will ask for an arrest of judgment, and if this is refused will seek retrial of the case. If this also fails the case will be taken to the supreme court.

SPECIAL RATE ON FLAGLER SYSTEM FOR GALA WEEK

In recognition of Gala week in Jacksonville, Dec. 6-11, the Florida East Coast railway is offering a special rate of one fare plus 25 cents for the round trip from all points on the road beginning Dec. 6th, with final limit Dec. 12.

The infant daughter of Mr. and Mrs. B. F. McClelland, of Volusia, is quite ill at Dr. Klock's hospital. Mrs. McClelland will remain with her.

ANNOUNCEMENT

COLUMBIA GRAFONOLA
\$50COLUMBIA GRAFONOLA
\$85

The demand for the talking machine of the present day has been impressed upon us very strongly, and we have decided to place in our warerooms a complete line of musical instruments of this character.

Columbia Graphophones and Grafonolas

and

COLUMBIA DOUBLE = DISC RECORDS

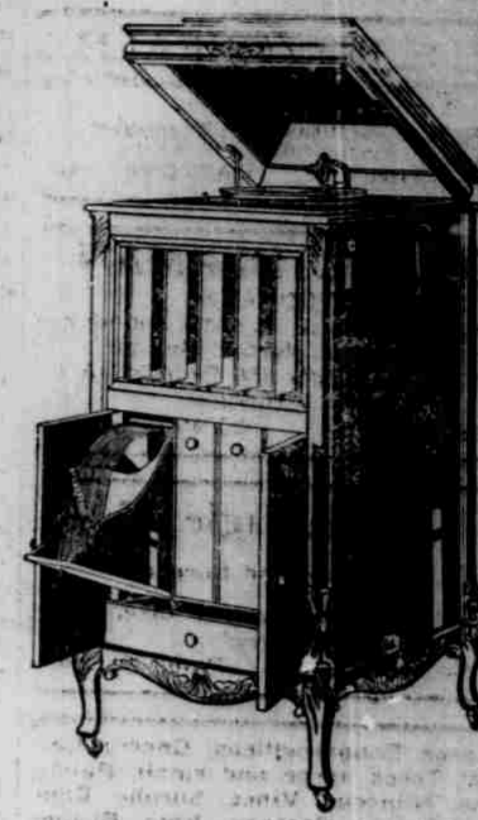

Beginning at \$15 and ending at \$200, you have many new and attractive instruments from which to choose—and any model may be purchased on the easiest kind of easy terms.

Whatever kind of music you like best—grand opera, great overtures, the piano playing of Josef Hofmann, or the violin art of Ysaye, or dance music, or rag time, or brass bands, or something for a laugh—it's at its best on Columbia Double-Disc records played on Columbia Grafonola.

A WORD REGARDING OUR SERVICE:—Our stock of Columbia Grafonolas and Columbia Records is all new. It will give us pleasure to play the records for you, whether you purchase or not, and we will gladly assist you in making selections, no matter how small the purchase.

If you do not find it convenient to call we will gladly send to your home on approval a Columbia Grafonola with an outfit of records. You can decide there whether you want it or not. And we can meet your idea of easy terms also.

After thorough investigation as to quality, price and demand of the goods themselves, we have come to the conclusion that the instruments and records which will best meet with the unqualified approval of our patrons, are

THREE STORES

TO NAME AUXILIARY ROUTE TO THE DIXIE HIGHWAY ON DEC. 9

Gainesville, Fla., Dec. 3.—There will be some "dark horses" on the program of the highway meeting in Gainesville December 9. The committee on entertainment has completed its part of the program, but they have left certain open dates. The delegations from those sections of the state where routes for the tributary roads and connecting links for the Dixie Highway have not been selected, will fill these dates.

There will be nothing cut and dried about this part of the program. It will be straight from the shoulder and sizably extemporaneous. Certain South Florida counties have not decided which of the cross "glades" high ways should be a part of the Dixie. The counties which send the biggest delegations and the strongest batteries of 42-centimeter oratory will get the road.

The program opens with a meeting of the executive committee of the Central Florida Highway association, in the board of trade rooms at 7:30 o'clock Wednesday evening. The directors will meet at the same place at 8 o'clock. The board of trade and the ladies of Gainesville will hold a get-together meeting for the visitors at the Masonic temple the same evening. Cigars and refreshments will be served.

The meeting on Thursday, December 9, will open in the tabernacle, with music by the University of Florida band, followed by the invocation by Dr. N. B. O'Kelley, pastor First Baptist church, Gainesville. Welcome in behalf of the city and the board of trade will be extended respectively by Hon. Christopher Matheson, mayor, and Dr. A. A. Murphee, president of the University of Florida. Response will be given by Hon. T. Ed Bryan, president of the Central Florida Highway association.

Reports of the officers will be given by T. Ed Bryan, president; L. P. Dickie, secretary; E. W. Elliott, treasurer. Hon. Edward Scott, chairman of the state highway commission, will speak on the aims and objects of the commission.

The afternoon session will consist of an address on road maintenance by George P. Scales, U. S. department of agriculture; transportation by W. Cook; address by W. P. Troy. Each

address will be followed by discussions.

The remainder of the meeting will be devoted to—well, the local talent from the various sections of the state who want to pull the roads their way.

An effort is being made to have the orchestra, glee club and athletic association of the University of Florida give an entertainment for the visitors Thursday evening.

It's a Bad Policy.

If you're raised to wash your face at the hydrant, don't marry into a finer bowl family.—Galveston News.

May Stir Up Cupid.

There is a man in New York who believes that all men and women are not perfect. He makes amends for this cynical and unusual viewpoint, however, by believing that they can be made perfect, and, not content with that belief, alone, he goes farther and says that he can go to work and demonstrate just how perfect they can be made. All he has to do is to get these imperfect creatures together, set the virtues of one to counterbalance the faults of another, and there you are. The bringing together of the imperfect men and women is to be done by means of a social club. The first that the imperfect ones knew of the founding of this organization was the printing of an "ad" the other day reading that the "social circle is now forming along semiscientific lines for people of culture and refinement lacking in congenial stimulating friendships." The score of letters received in answer to the "ad" would indicate that the marriage license clerk is going to be real busy when the club is formed.

Looking at Home.

Recently a band of sociological explorers discovered an odd little district that needed attention. Its population of some 6,500 souls was mostly foreign born. Newly landed immigrants floated into it and were considerably exploited by alleged guides and other dubious aids to the inexperienced. Most of the working inhabitants were employed as porters, longshoremen, scrubwomen, and in like unskilled, poorly paid trades. A single block yielded 65 cases of tuberculosis in a year. This sociological find is on the lower end of Manhattan island, walled in by the skyscrapers of the financial district, from which the mountain heads of much organized philanthropy might have tossed a biscuit into it if it had occurred to them to look that way. About nine times out of ten proper objects for charitable intervention are right around the corner from you—whether you live on Manhattan or in Emporia, Kan.—Saturday Evening Post.

KINGSTON.

Kingston, Dec. 2.—Mr. and Mrs. Elton Rich were made happy Tuesday morning by the arrival of a ten-pound son.

Mr. and Mrs. D. Bohannon are here again for the season.

Mr. and Mrs. LaBounty and daughter and family, of Toledo, Ohio, are again occupying their home on Mulberry street.

Miss Mary Roseborough spent Thanksgiving in DeLand.

The lecture given in the Methodist church by Rev. J. M. Johnson was well attended and very much enjoyed.

D. Rider has established a laundry and dry cleaning establishment at the corner of Ridgewood and Main streets and is doing a flourishing business.

Silver in England.

Silver is not legal tender in England for sums over \$10.

Not the Same.

"Full crew" did not mean today what the same words meant 25 or 30 years ago.—Dallas News.

Condensed Knowledge.

At an examination held at Edinburgh university, a student was being examined in physiology. His knowledge was soon gauged by the professor, who rather surprised the young man by asking if he had his card—meaning his matriculation card. The professor in question is one of the most genial men in the university, and the young "med," fancying that he proposed to take some personal interest in him, replied that he had, and at once presented his visiting card. "Thanks," said the professor, blandly. "Now, will you kindly write on that all you know about physiology."

Frequent Eating.

One big meal a day may be sufficient, writes a correspondent, but even its advocates would probably admit that an occasional snack during the rest of the day is necessary. Long-distance athletes know that strenuous physical work necessitates stoking at frequent intervals. "Little and often" is the motto of the long-distance cyclist, for instance. He keeps his big meal for the end of the day, but he knows that the "hunger knock" is the worst form of fatigue, and he nibbles as he goes to guard against it. And one suspects that the same principle lies at the back of the soldier's love of chocolate.

WILL OCCUPY GOVERNOR'S HOUSE IN DAYTONA BEACH

David Remley and daughter-in-law and granddaughter, Mrs. Edward Remley and Miss Ruth Remley, and Squire Rusk and wife of Waynetown, Ind., arrived Thursday of this week and will be located for the winter in the Daytona Beach residence of Governor N. E. Harris of the state of Georgia. The party are friends of Manley Booe of this city and Crawfordsville, Ind. Edward Remley will come south in about two weeks.

Anxious to Please.

Evangeline Maude had got a new job. Tired of standing all day, she threw up her situation as a shopgirl and managed to get work in a telephone exchange, although she knew nothing about it. The first call came through. "What number, please?" "Nine—nine—nine—nine!" came the reply. E. M. looked really distressed. "Oh, I'm so sorry," she breathed through the instrument; "but we're out of—er—I mean that nine—nine—nine—nine is engaged! But I can supply you with nine—nine—nine—eight or ten thousand, if you wish."—London Sketch.

Good of Manual Training.

Even for those that are predestined to intellectual work manual training will be of immeasurable moral benefit. It satisfies the natural impulse, congenital or innate in man, to create and to do. Activity and creation evoke gratification and the consciousness of self-dependence. Creative processes illustrate inflexibly the law of righteousness. As the worker plans, so will be the outcome—Exchange.

Uncle Eben.

"Sense I done los' so many chickens," said Uncle Eben, "I has come to de conclusion dat mebbe even a dove of peace needs a certain amount of watchful protection."

Old English Ale.

English ale has won approval from foreign visitors for centuries. A French traveler who came over in the sixteenth century, for instance, records that his first and most delightful discovery on reaching Dover was the "delicious Kentish beer," which he declares was most "pleasante in taste and wholesomely relished," and revived his drooping spirits after the channel passage. William FitzStephen, in his "Life of Thomas a Becket," states that when the archbishop went on an embassy to France he took with him two wagons laden with beer in iron-bound casks as a present to the French, "who admire that kind of drink, for it is wholesome, clear, of the color of wine and of bitter taste."

D. A. R. MEETING HELD AT HOME OF CAPT. YOUNG

On Wednesday afternoon the Abigail Bartholomew chapter, D. A. R., was most delightfully entertained at the home of Capt. C. A. Young, on Peninsula drive, Daytona Beach.

There was a large attendance of the daughters and a good number of guests.

The program was a patriotic one, many interesting topics being discussed.

The social hour was heartily enjoyed, the time passing quickly in pleasant chat while refreshments were being served.

Upon departing, the women voted Capt. Young a most perfect host.

Race Course Paved With Salt.

What is undoubtedly the most novel automobile race course in the world is found at Salduro, Utah, where natural salt beds furnish the roadway. The beds are on the line of the Western Pacific railroad and are 65 miles in length and eight miles in width, furnishing a smooth, unbroken surface, level as a table, and are from two to twenty feet in depth. The salt is crystallized, 98 per cent pure, and white as snow. The surface is hard and dry.—The Argonaut.

Expression of the Eye.

Sir Lauder Brunton, the great London doctor, declares expression to depend chiefly upon the setting of the eyes, and not upon the eyeball itself. He tells that he illustrated this by pictures. In one he had a Madonna, in another a figure of Anger, from Lavater's "Physiognomy." He had, besides, a pupil and iris, and used these, a pair of ordinary eyes, for each picture, and it did not materially alter the expression. He also made the "fatigued" eye simply by lowering the eyelid over an "alert" one.

Get Patents in America.

France is the best foreign patron of the United States patent office, with Great Britain following closely.

Usual Plan Reversed.

It was the first day of school, and the teacher was making up her records. "How many of you pupils are tuition pupils?" she asked—meaning, of course, those who lived out of the city district and must pay tuition. A bad little boy who does not like school and upon whom his parents are obliged to use all sorts of inducements to get him to go, could not get that word "tuition." "I don't know what you mean," said he. "I mean those that have to pay tuition," said the teacher. "Do you pay to come here?" "Naw; they pay me to come here."

BRITISH STEAMER SPARED BY U BOAT

"We Are Not Murderers," Says Austrian Commander.

MANY DROWN IN THE PANIC

Submarine Quickly Came Alongside the Barulos and Aided in Rescue Work—Wounded Cared For Aboard Warship, Which Stood by For Five Hours—Only One Shot Fired.

"For God's sake, go back to your ship; we are not murderers!" an officer of a submarine, apparently an Austrian, shouted to 250 passengers of the British steamship Barulos, who had become panic stricken and jumped overboard when the submarine came upon the vessel in the Mediterranean. Of the passengers twenty-five were drowned. The submarine stood by for five hours and finally let the Barulos proceed to Alexandria. Before the submarine appeared the Barulos picked up three boats from the torpedoed Sailor Prince.

The details of the incident were brought to New York by Mrs. Eleanor Franklin Egan, the magazine writer, who was a passenger on the Barulos.

The Barulos, Mrs. Egan said, carried only four lifeboats, each with a capacity for thirty people. The picking up of the crew of the Sailor Prince created a feeling of excitement, which was at fever heat when suddenly a submarine came to the surface about two miles distant and fired a shot over the Barulos, evidently as a signal for her to stop.

"Instantly a wild panic broke loose," said Mrs. Egan. The four lifeboats of the Barulos were resting in their chocks, while swung alongside were the two boats in which the men from the Sailor Prince had made their escape.

Throw Children Into Sea.

"Led by the crew and the fireroom force, the passengers rushed for the boats. Women, unable to get to the boats, threw their children into the sea and jumped after them. Frightened sailors cut the ropes holding the small boats, and when the latter crashed into the water three of the six were swamped and emptied of their human loads.

"I was at the rail when the submarine appeared, and I started back toward the stairs leading below with the idea of helping to quell the panic. I was caught in the rush and literally forced over the side into the sea. I had a hard time to keep above the water, my difficulties being aggravated by the struggles of others trying to catch hold of me.

"It seemed that I had no sooner struck the water than the submarine appeared under the bows of our ship. On her deck I saw a number of men with an officer whom I took to be an Austrian. The submersible had her collapsible lifeboat out, and the submarine crew was pulling people out of the water on to her deck. The officer was holding up his hands shouting to the people in the water to be calm. I heard him say in perfect English:

"We Are Not Murderers."

"For God's sake, go back to your ship; we are not murderers!"
"By this time I had worked my way some distance from the ship, and, seeing one of the lifeboats near, I held up my hand and called for help. The people in the boat responded and after a second attempt succeeded in throwing a line to me when I was all but exhausted.

"The first of the panic over, we rowed back to the Barulos and were taken aboard. Women and children, many in a half-drowned state, were crowding the deck of the submarine, which remained alongside.

"When all the rescued were returned to the Barulos a toll showed that twenty-five were missing, fourteen children, seven women and four men.

"In addition to the twenty-five drowned many were wounded in the panic. Several of the most serious were taken into the submarine and treated by our ship doctor, who went aboard at the invitation of the submarine commander."

Many Heartrending Scenes.

Mrs. Egan said she witnessed many heartrending scenes.

"One woman," she added, "who had lost her three children by throwing them overboard went stark mad. In the steerage were a troupe of Japanese acrobats. One of them, a woman with an infant child, was seen almost exhausted trying to cling to the sides of the ship. She was surrounded by many others. A rope was thrown into her hands, but looking up, she exclaimed in English:

"Don't mind me. I belong to no one and have no one to care for me. Help some one else."

"With these words she passed the rope to another woman and, with her babe in her arms, sank from sight.

"Only one shot was fired by the submarine. She remained alongside for five hours, or until all possible rescues had been made and the wounded had been attended. She then disappeared under the water, and we proceeded to Alexandria without further incidents. I did not learn her name or designation number, but she was one of the earliest boats of her kind I have seen."

The Old Town

The city lights are gold and red and strung in garlands overhead. They whirl and dance and turn and spread till light's like day. Till all the wild that's part of you comes leaping from the heart of you. And swings you all a-quiver down the flashing way. But, oh, the little old lights, not garlanded nor gold lights! One by one they paled out, the pleasant lights you knew. And up and down the pavement's hem the old man limped a-lighting them. The old lamps in the old town when the sleepy day was through.

The city streets are straight and wide, and, hurrying on every side, The people crowd and cross and ride and elbow past. Till down the pavement's noise and beat your feet keep time to swifter feet. The pulses of the city as it hastens fast. But, oh, the little town streets, the rambling up and down streets! All the twists and turns are just the way they used to be. You'd think the very dead you knew might round a lane and smile at you. And not a careless welcome in the old way cheerily.

The city's gay and wild and kind and full of joy for you to find, And all its ways that cross and wind are blithe each one. It's like a sweetheart beckoning, and, laughing at the reckoning, You spring to follow after till your youth's time's done. But, glad of you and sad of you, the little wistful lad of you. Leaps up to greet the old place when you're grown too old to roam! It's like your mother calling you—what-ever is befalling you. The little old town's waiting till you're ready to come home.
—Margaret Wildmer.

ESCAPES TRAP AND BOMBS. BOAT GETS ONE VICTIM.

Kipling Tells of Submarine's Feat in Sinking a Destroyer.

Rudyard Kipling in the London Daily Telegraph tells a remarkable story of an exploit of a British submarine.

"There was a boat in the North sea," he says, "which ran into a net and was caught by the nose. She rose, still entangled, meaning to cut the thing away on the surface, but a Zeppelin in waiting saw and bombed her, and she had to go down again at once, but not too wildly or she would get herself more wrapped up than ever.

"She went down, and by slow working and weaving and wriggling, guided only by guesses at the meaning of each scrape and grind of the net on her blind forehead, at last she drew clear.

"Then she sat on the bottom and thought. The question was whether she should go back at once and warn her confederates against the trap or wait till the destroyers, which she knew the Zeppelin would have signaled, should come out to finish her, still entangled, as they would suppose, in the net.

"It was a simple calculation of comparative speeds and positions, and when it was worked out she decided to try for the double event.

"Within a few minutes of the time she had allowed for them she heard the twitter of four destroyers' screws quartering above her, rose, got her shot in, saw one destroyer crumple, hung around until another took the wreck in tow and said goodbye to the spare brace. She was at the end of her supplies and reached the rendezvous in time to turn her friends."

PLEA FOR THE ARMENIANS.

200,000 Refugees Now Totally Dependent on American Charity.

The American committee for Armenian and Syrian relief, Charles B. Crane, treasurer, 70 Fifth avenue, New York, is now able to announce that funds for the relief of the suffering Armenians can be used through its commission in Tiflis for the 200,000 refugees who have fled to Russia; through the relief committee in Cairo, Egypt, for several thousand who have escaped to the south, and through Ambassador Morgenthau for the scores of thousands still in Turkey, confronted by the terrors of the approaching winter, against which they have no protection whatever.

Ambassador Morgenthau has just cabled: "Several hundred thousand Armenians have already been destroyed or are so placed that their destruction is inevitable. The injustice, grief, poverty and starvation resulting therefrom are terrible. Large sums of money are needed to relieve suffering and prevent starvation, and the United States is the only source from which substantial assistance can be secured."

James L. Barton, chairman of the committee, states that independent witnesses more than confirm the ambassador's dispatch. He says: "The extent of the atrocities and the awful helplessness of this innocent and defenseless people are beyond the power of words to describe. History has recorded nothing like it. Only prompt action can save the remnant of the race."

KAISE'S ABODE LOSES ROOF.

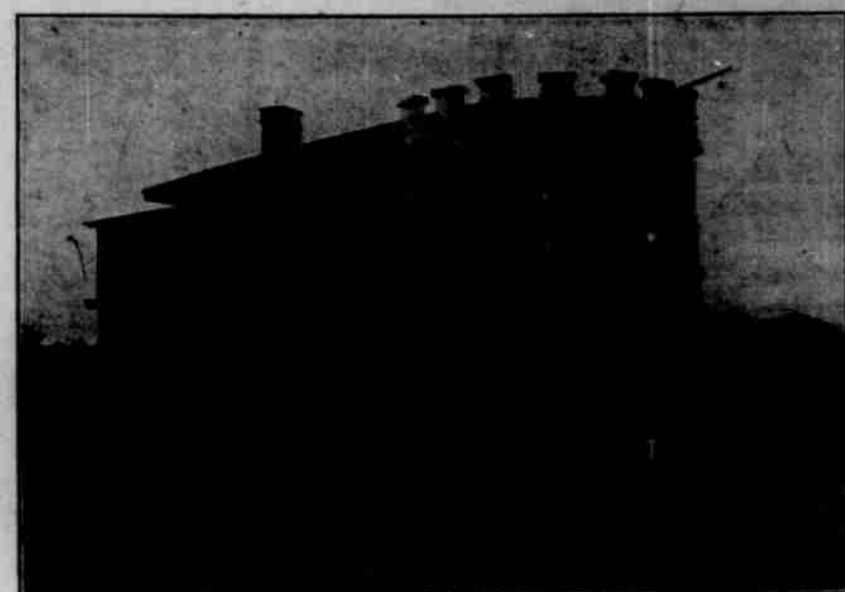

Authorities Need the Copper in One of Imperial Castles.

The imperial castle at Donaueschingen, Germany, is being shorn of its copper roof for use in making war munitions.

Last September the emperor's palace in Berlin was visited by a military commission demanding a list of the metals at the court. Emperor Wilhelm ordered that all metals not in actual use be seized. A recent report said that the copper roofs of the cathedral at Bremen were being dismantled for military use.

BOSTWICK PARK ALLANDALE

We beg to announce the opening of these two beautiful properties for the selling season of 1915-1916

STONE RESIDENCE IN BOSTWICK PARK

BOSTWICK PARK

Just across the Halifax.

BOSTWICK PARK, just across the Halifax, is unsurpassed as an ideal place for a winter home.

Here you have all that makes life worth while. Possessing as it does the attractive scenic features, healthfulness and sanitation, easily accessible, yet far enough away to obviate all discomfort arising from traffic noises and the confusion of everyday life in the center of the business section. Bostwick Park has all modern conveniences; electric lights, gas, water, streets hard surfaced with shell and rolled smooth.

RIVER FRONT, ALLANDALE

ALLANDALE

The Beauty Spot of the Halifax

ALLANDALE and the associated properties are located in the very heart of the Halifax river section, enjoying the climatic advantages accruing from such location, and possessing scenic attractions unsurpassed along the Atlantic seaboard.

Touche of quaintness and novelty occur here and there throughout the treatment of the place, in the process of bringing it up to the desired standard.

The visitor to Allandale is immediately impressed with the sylvan beauty of its location. Tall oaks arching over the white shelled road, thickets of hickory, wild orange and palmetto and long gray banners of Spanish moss lend an air of splendid restfulness and comfort to the place and create a desire in the heart of the visitor to build a home in this delightfully secluded, yet easily accessible location.

Lots in Bostwick Park and Allandale can be bought on easy terms. Come in and let us tell you about it.

SLIGHT ACCIDENT IN DAYTONA BEACH

**AUTOMOBILE AND STREET CAR
COLLIDE ON MAIN STREET OF
DAYTONA BEACH YESTERDAY
AFTERNOON.**

A collision occurred in front of the postoffice yesterday afternoon a little after 2 o'clock between an Overland auto owned and driven by U. S. Shelly, of Seabreeze, and one of the Central of Florida railway company's cars. Mr. Shelly's auto passing east and the westbound street car met as the auto driver attempted to cross the track from the left side of the street. Seeing that he would not have room to pass between the street car and another automobile standing in front of the postoffice, Mr. Shelly tried to back his car out of the way and as the street car was unable to stop soon enough the vehicles collided. Happily, both were moving at a comparatively slow rate of speed and no very serious damage resulted. The fender of the street car was badly bent and the Overland's front axle was sprung a little, in addition to a cracked hub cap and a smashed mud guard.

VANDE VORD THINKS THIS SEASON WILL BE BEST EVER

A. Vande Vord, Daytona Beach's progressive manufacturer of cement blocks, holds the opinion, along with the other optimists, that the present season is to be the best yet. It is certainly an excellent year for him. A week seldom passes that Mr. Vande Vord fails to receive several contracts for cement work. Just now he has gangs of men at work on several jobs in addition to the force employed regularly in manufacturing cement blocks for the work being done. Mr. Vande Vord is also able to find time to improve his own holdings, and at present is laying a sidewalk along his property on Duke street, between Palmetto and Live Oak streets.

A. S. RANDALL BOUND OVER FOR COUNTY COURT TRIAL

The preliminary hearing of the case of the state of Florida against A. S. Randall, of Daytona Beach, was held Monday afternoon at four o'clock before Justice of the Peace J. W. Williams. The defendant was accused of causing to be overworked a mule in unfit condition for labor and was bound over by Justice Williams on charge of cruelty to animals. Bail was furnished for the defendant.

The charge was brought at the instance of the Humane society.

W. Oehler returned Thursday morning from a short hunting trip in the Tomoka district, bringing back a full bag of squirrels and other game.

DAYTONA BEACH LOCALS

****FOR SALE—5 passenger Auto,**
\$250. Daytona Beach Garage. 3-2t

H. Brown, a well-known citizen of Saint Augustine, was in town Thursday greeting friends.

J. F. Culp and C. H. Barnley, of DeLand, were visitors to the beach Wednesday afternoon.

Thursday, colored workmen in the employ of the town were digging up part of the old system of water mains on Coates street.

S. F. Smith, president of the Daytona Beach council, has had installed city water in the Branch block on Seabreeze avenue.

M. T. Prichard will arrive from Boston, Mass., to spend the winter at 215 Hollywood avenue as in the last two years about the time of the Christmas holidays.

G. W. Guard arrived here from the Northern states Wednesday to spend the winter at his cozy Marshall Park bungalow, which he purchased before leaving for the North last spring.

A party consisting of Mr. and Mrs. C. O. Chamberlin, Mr. and Mrs. R. S. Burris, of Crescent City, and E. Black, of Tulsa, Oklahoma, are spending a few days here and are stopping at the Daytona Beach hotel.

J. M. Dunlap was engaged Thursday in repairing one of the cesspools of the Ohio block. Mr. Dunlap has also made other preparations for the coming seasons and several of the apartments in the Ohio are already occupied by winter visitors.

Mr. and Mrs. J. R. Reynolds, who were expected to arrive this week from Mount Airy, North Carolina, will not be here as soon as they had planned. Detained by the death of a near relative, they will not come South by automobile but by train, to spend the winter with Mrs. J. Strother, on Seabreeze avenue.

The Daytona Beach garage will continue under the management of W. B. Goldenberg instead of changing to that of Harton Bros. The arrangements were all made for the management of the business by Harton Bros., but with the consent of both parties to the agreement, Mr. Goldenberg will remain with the garage.

Mr. and Mrs. C. C. Van Nuys and father, Albert Liszt, of Franklin, Indiana, arrived Thursday afternoon from the North to spend the winter here as is their usual custom. Mr. and Mrs. Van Nuys are earnest church workers and were warmly welcomed by all of their numbers of friends who have met them since their arrival.

Alaska's Fisheries.
Since the purchase of Alaska by the United States its waters have yielded fishery products valued at more than \$250,000,000.

Optimistic Thought.
Through difficulties we obtain freedom

Strive Lawfully.
If a man also strive for masteries, yet he is not crowned, except he strive lawfully.—1 Timothy 2:5.

SEABREEZE PERSONALS

Miss Pearl Wilson has accepted a position as clerk in the Seabreeze postoffice for the winter.

Some of the pupils of the local high school will present a play based on the "Christmas Carol," by Charles Dickens, at the Christmas exercises of the school.

R. Thoburn, who recently arrived from Coney Island, N. Y., to stay here for the winter, has purchased from T. G. Gushee, of Daytona Beach, the lot on the corner of Grandview avenue and Duke street, with the intention of building a bungalow for a home.

The ladies of the Kentucky-Nepenthe have thrown open the spacious parlors of their hotel to those tourists and home ladies who enjoy playing cards each Friday evening. A fee of ten cents will be asked for the purchase of refreshments for each of the nights when card parties may be held.

Mr. and Mrs. J. C. Purdy, of Pen-Mar, Pa., will be here about the 12th of the present month to spend the winter. Mr. and Mrs. Purdy, who spent the last two winters here, are coming by way of Baltimore and the Merchants & Miners steamship line, and will leave their home on the 6th. They intend to spend the winter with Mr. Purdy's brother, in the Lichtenwalter house on Palmetto avenue.

Chas. E. Kenney is using the building formerly occupied by the branch of the McLane Lumber company for the purpose of storing and drying palmetto berries before shipping them to northern firms who use them for making certain medicines. Mr. Kenney has sent off large shipments for the last few years and is now preparing to fill an order for five tons of the berries.

NEW SPRINKLER AT WORK SMOTHERING DUST CLOUDS

The new town street sprinkler was put at work this morning on the dusty thoroughfares of Daytona Beach. The frequent passing of automobiles and street cars has caused a continual cloud of dust to hover over Seabreeze avenue and Peninsula drive, for the last few days especially. This innovation will be welcomed by all who find it necessary to traverse these streets daily and by the storekeepers and office men who have been fighting the dust clouds for the last two weeks.

The young people of the Seabreeze Avenue Methodist church are taking a great deal of pride in their junior choir work. Two evenings of each week are spent in practicing the special work for the Sunday evening service and many of those attending at that time go especially to hear the young folks sing. Mrs. H. W. Drake, who is directing the choir again this year, takes a great amount of interest in her work. Those who like to hear good music Sunday nights can easily have their wishes granted by coming regularly to this church.

FORMER RESIDENT IS HERE FOR SHORT STAY

Mrs. H. S. Adams, of Saint Augustine, is in town for a few days, on a business trip. Mrs. Adams has numerous friends in the peninsula towns, having resided here for a number of years. Formerly employed at house correspondent at the Hotel Clarendon and at other newspaper work, Mrs. Adams has her hands full now as hotel correspondent in Saint Augustine for several newspapers. While in town she will look after her mother's, Mrs. H. B. Berry's, property on Halifax avenue, as well as visit her many friends.

The Florida Times-Union has inaugurated a Sunday auto service which supplies all carrier agents between Jacksonville and New Smyrna. The car leaves the state metropolis at 3:00 a. m., as soon as the papers are off the press, and arrives at Seabreeze about 9:00 o'clock. In this manner the Times-Union subscribers can have their Sunday paper five hours earlier than formerly. A daily service of this kind, to become operative later in the season, is seriously contemplated by the T.-U. management.

Fishing.
A man who calls himself an idiot wants others to question his veracity.

Sterilized Milk.
Milk sterilized by electricity will keep sweet in capped bottles for eight days.

HIGH SCHOOL PUPILS MAKING UP ANNUAL

The pupils of Seabreeze high school are busily engaged in preparing the 1916 number of the "Sand Crab," their annual booklet. The coming issue will be the fifth which has been put out by the local school. Each year the annual has improved in appearance and contents, and much labor is being spent to make the 1916 number the best yet.

Arthur P. Moor, of the senior class, has undertaken the editorial duties, and the Peninsula citizens interested in school work are waiting to see the new "Sand Crab," on which Mr. Moor and his staff of competent assistants are at work.

TEAM PRACTICES FOR THE GAME AT DAYTONA TONIGHT

Wednesday night and Thursday afternoon the local high school basketball team held their regular practice on the school court in preparation for a game with Daytona at the Arcade tonight. The contest promises to be a hot one.

BASEBALL MAGNATE VISITS DAYTONA BEACH FRIENDS

Charles H. Ebbets, president of the Brooklyn National baseball club, and Mrs. Ebbets, who arrived in Daytona yesterday afternoon, were visitors at the home of Dr. and Mrs. John F. Morrissey, on Peninsula drive and Mitchell place, later in the day. Dr. Morrissey and Mr. Ebbets are close friends, both having homes in Brooklyn, N. Y.

PHYSICIANS MAKE ERROR IN SENDING VITAL STATISTICS

T. G. Gushee, town clerk of Daytona Beach, says that the majority of the local physicians are making the mistake of sending the birth and death reports to Tallahassee or Jacksonville. These reports should be turned over to Mr. Gushee in accordance with the recently adopted vital statistics ordinance of the town. It will save the obliging town clerk and the state recording officials no small amount of trouble if the doctors will comply with this request in the future.

THE WINTER SERVICES AT TOURIST CHURCH, SEABREEZE

Winter services will begin December 5. The gifted Dr. Serie, of Carthage, Mo., will arrive Saturday, December 4, and occupy the pulpit Sunday, December 5, and conduct regular services as he did last winter. All denominations worship at the Tourist church, and a most cordial invitation is given to come and hear Dr. Serie.

The "SILENT SMITH"

—Model 8 shows what should now be expected of a typewriter.

Ball Bearing; Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the user have dictated its construction. The user has decided in favor of certain improvements now incorporated in Model 8. Among them are:

Silence of Operation—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.

Decimal Tabulator—A help in billing and tabulating. There is no extra charge for this convenience.

Variable Line Spacer—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.

Faster Ribbon Feed—Insures new place of impact for each typeface.

Choice of Carriage Return—Upon special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained—ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.

DR. LINCOLN HULLEY
PLEASES AUDIENCE

PRESIDENT OF STETSON UNIVERSITY DELIVERS INTERESTING LECTURE IN HIGH SCHOOL AUDITORIUM ON POET TENNYSON.

Before a greatly interested auditorium last night, Dr. Lincoln Hulley, of Stetson university, lectured upon "Tennyson: His Beautiful Life and Message." With scholarly insight Dr. Hulley depicted the development of Tennyson's style from the alliterative and sentimental poems of his school days to the loftier and stronger productions of his later years and his patriotic poems as poet laureate of England. Showing how Tennyson's character and productions were affected by the tragedies which came upon him as a young man, the deaths of his dearest friend, his father and his brother; the loss of his patrimony and the renunciation of his betrothed—the period of extreme poverty and adverse criticism, and how he was gradually attracting attention, until he drew the plaudits of the literary world with "In Memoriam."

The kindly spirit of the man was shown as the laurel was placed upon his brow upon the death of Wordsworth. Having reached the pinnacle of poetic fame in his native country, he expressed himself as honored because the laurel had recently been upon the head of "the man who never uttered a base thought."

"Dr. Hulley interspersed his remarks with frequent quotations from Tennyson's poems, rendering these in an effective manner.

Daytona's citizens and visitors should take advantage of this lyceum course. All of the talent engaged is of a high order and the proceeds are to be used in purchasing paintings and other decorations for the school buildings.

No Mere Ornament.

Singing includes deep inspiration and expiration; muscular action; increased circulation; joyous and intelligent interpretation—bringing smiles and tears. Song is thus lifted to its rightful place of activity and accomplishment, and is not the ephemeral ornament that many suppose.

Caustic Shot From the Bench.

"Somewhat like the writer described by Byron as having just enough of learning to misquote, the testator seems to have been just sufficiently acquainted with technical terms to misapply them."—Lord Atkinson in *Lightfoot vs. Mayberry*.

THE YACHT RECREATION
MADE BRIEF STOP HERE

The yacht Recreation, of Jacksonville, with the owner, J. W. Scott, and party, on board, made a brief landing at the city dock this morning on her way to West Palm Beach. Mr. Scott has as his guest J. A. Holcombe, of Atlanta, Ga. The Recreation is in command of Capt. T. G. Knight, of Titusville.

FLAGLER HOTEL PROPRIETOR
WILL MAKE DAYTONA HIS HOME

Mr. and Mrs. C. E. Luther and young sons, Thomas F. and Charles W. Luther, arrived Tuesday of this week from Providence, R. I., touring to Daytona in their car, as is their custom. They came through in ten days and had a good trip. There was great improvement in the roads between Savannah, Ga., and Jacksonville, Mr. Luther says, and the worst piece of road they experienced was in Virginia. Mr. Luther and family are at their hotel, the Flagler, formerly the Riverside, on North Beach street. Mr. Luther is having a number of improvements made in the hotel preparatory to opening it for the season. Mr. Luther and family expect hereafter to make their home in Daytona throughout the year.

FREE LECTURE MONDAY
AT THE PUBLIC SCHOOL

Miss Isabel Goodhue, field agent of the Audubon society, will lecture in the public school auditorium at 3:00 o'clock Monday afternoon. No admission will be charged and the public is invited to attend. Immediately preceding the lecture a brief meeting of the Junior Humane society for the purpose of completing organization will be held.

WRITES HE IS ANXIOUS
FOR NEWS FROM DAYTONA

Gilman Davis, writing from Oswego, N. Y., Nov. 28, for the Gazette-News says: "I am anxious to hear the news from Daytona," and concludes with "I expect to be in Daytona again this winter if nothing happens." Mr. Davis and family have spent a number of seasons in this city and have a large circle of friends here.

Nature's Gentleman.

With pitying admiration, one may call some ill-mannered but honest fellow creature a "nature's gentleman." But no one to this day has ever ventured to describe any woman as a "nature's lady."

Ink Eradicator.

A very good way to remove ink stains from cloth is to wash them with boiled rice. Rub the rice on the stain as you would soap, and wash with clear water. If the first application does not complete the cure repeat the process. It usually works like magic even if stains are perfectly dry.

Unselfish.

Doctor—"Is your wife strong-minded enough to see that you positively refrain from eating sweets?" Patient—"Sure, doctor: She's got spunk enough to make me pass up the candy and pastry and all that as long as she's allowed to eat it herself."—Judge.

Three Types of Feet.

Three types of human feet have been noted by a British naturalist. In the most common designated, the L type, the first or great toe projects beyond the others; in the much less frequent S type the second toe extends beyond the first, as well as the others; and in the rare E type the first and second toes, longer than any others, are of equal length. The S type, which seems to be a more youthful form than the others, is more common in females than in males.

PEACE SHIP SAILS SATURDAY.

New York, Dec. 3.—Final arrangements are under way for the sailing of the Ford expedition tomorrow. Those who arrive too late will follow and join the party at Christiana.

"Cadillac '8' Beating the Lark"

A thrilling race between an Eight-Cylinder Cadillac Car and the fastest express train, through the mountains, from Los Angeles to San Francisco, California

THE CADILLAC "8" is a car of practically throttle control, of rapid and easy acceleration, from a snail's pace to the speed of the wind, without apparent effort, without hesitation, without tremor.

In the high speed, high efficiency, eight-cylinder, V-type engine, there is no intermission between impulses, but rather an overlapping so complete that one melts into another, the torque, therefore, is constant and the flow of power continuous, which makes the Cadillac "8"

GOOD WORK OF CHIEF MILTON RESULTS IN CAPTURE 3 THIEVES

Henry King and his wife, Mildred King, and Hazel Jones, three colored people, who had for some time been under surveillance by the Daytona police department, were arrested by Chief of Police T. O. Milton, Thursday, and charged with responsibility for the robbery of J. S. Clark's store in Midway on Wednesday night. The negroes were lodged in the city jail and on Friday morning were given a preliminary hearing before Justice M. G. Rowe. All three were held for trial in the criminal court, and were removed to the county jail, at DeLand, this afternoon.

Officer Milton searched the rooms that had been occupied by the trio in Midway, and found many of the articles taken from Smith's store; but more important was the discovery of numerous articles of considerable value stolen about a week ago from the Ridgewood avenue home of Mrs. F. A. Newell.

Benediction—Chaplain Edward Archibald.

Exit, Good Fellowship March—Crystal orchestra.

PRESIDENT'S DAY AT THE PALMETTO CLUB

(Continued from first page.)

Miss Kathryn Thorp, vice-president of the fourth division of Florida, spoke of the business side of the federation and referred to the recognition which is coming to club women in this state, the governor having appointed several club women to important positions.

Miss Lee Bowers gave some "Vacation Notes" which were full of interest. Her youthful enthusiasm and clever description carried her audience with her on her vacation trip across America. With her they journeyed to Chicago and viewed its wonderful shops and boulevards, traveled through the busy west, visited the exposition in California, stopped at Catalina Island, at Los Angeles' universal city of film fame, Santa Barbara, the ancient mission, Del Monte, San Francisco, Portland, the city of roses, Vancouver, so typically English, then back across the continent. It was a delightful journey, personally conducted by one of the club's newest members.

Mrs. J. D. Maley spoke earnestly in behalf of a benevolent project for assisting a family in need and the response was prompt and generous.

A tea was announced for next Tuesday afternoon, from 3 to 5, with program and refreshments, proceeds to go into the building fund. The entertainment will be in charge of Mrs. Rolland E. Stevens.

A short business session followed the program's conclusion.

Hostesses of the day were the officers of the club.

Not Late.

Little Jimmy's third day at school and he was late starting. "You were late this morning, were you not, Jimmy?" queried his mother at noon. "No, ma'am," answered truthful Jimmy. "You were not! What were the other children doing when you reached there?" "The children"—and Jimmy beamed—"why, they were just all sittin' still waitin' till I got there."—Woman's Home Companion.

His Way of Cheering Up Invalid. "I am in a frightful condition!" droned the village bore. "My attack of rheumatism left me so sore and weak that I can hardly crawl." "What the devil do you want to crawl for?" snorted Gaunt N. Grimm. "Why don't you walk?"—Kansas City Star.

PERSONALS

W. J. Lilly, of Volusia, was a Daytona caller during the afternoon and evening.

Mrs. E. Wayne Evans, of Volusia, transacted business in the city between trains yesterday.

****WANTED—**Position as chauffeur in private family. White, single, sober and reliable. Address Chauffeur, care of News office. 5&.

Mrs. Eberhart, of Volusia, wife of D. C. Eberhart, of the News force, spent the day in the city shopping.

Mrs. Maud M. Walton has arrived from Miami to be with her mother-in-law, Mrs. C. H. Lane, who has been ill for about a week and is considered in a critical condition.

***The Old Sugar Mill and Grounds** near Port Orange can be rented for the season. Inquire, S. E. Bullard, Exec., Daytona. f&s

Mr. and Mrs. T. J. Leonard, of Bedford, Ind., returned to Daytona Saturday to spend the season and are occupying their bungalow on Woodland avenue in the Rowlander subdivision on North Beach street.

Miss Vera Westberry arrived Thursday evening from Winoka, Ga., to spend some time with Mr. and Mrs. E. L. Fulce at their home on West street in Palmetto Park. Miss Westberry is a niece of Mrs. Fulce.

***FOR RENT—**The old Sugar Mill and Grounds near Port Orange for the season. Inquire, S. E. Bullard, Exec., Daytona. f&s

Friends here of Mr. and Mrs. J. F. Brown of Baltimore, Md., will be interested in knowing that they have another little daughter, born the last week in November. Mrs. Brown was Miss Carrie Mabbette, proprietor of the Hamilton hotel.

***Beautiful Cyclamen Plants.** Daytona Floral company, Phone 144 Green.

Mr. and Mrs. W. F. Scramlin of Climax, Mich., arrived last Sunday and are established for the season in their winter home on Cypress street. Mr. and Mrs. Scramlin spend the summer months in northern Michigan, but Mr. Scramlin says they found it even too cold the past summer, fires being necessary for comfort much of the time.

***Fine PEPPER PLANTS** for Christmas decoration. Daytona Floral company. f&s

Fred H. Baker and family arrived Thursday evening from Saratoga Springs, N. Y., and joined Mr. Baker's parents, Mr. and Mrs. J. H. Baker, at the Windsor hotel, of which Mr. Baker will again take the management this season. Mr. and Mrs. Baker have many friends here who will be pleased to hear of their arrival for the winter.

The Old Wheeze.

The world is eternally plagued by a class of estimable people who dread the new. Their instinct is to club it over the head. Since that primitive implement went out of fashion they have carried an antique flintlock pistol known as an old wheeze. With this they take deliberate aim and the noise which follows is: "Of course there is some truth in what you say, but you can never change human nature." Now while old campaigners like Columbus, Darwin, Cromwell and Giordano Bruno could view this weapon with equanimity, it did often terrify amateur rebels into silence, until one bolder than the rest looked unflinchingly into the bore. The reward of his courage was this damaging discovery: The Old Wheeze is loaded with nothing but blank cartridges.—Seymour Deming, in Atlantic Monthly.

How to Tell if It Is Silver.

To distinguish silver from white metal the Jeweler and Metalworker gives the following directions: Rub on a piece of slate, wet the streak with dilute nitric acid, by which it is dissolved, and then add a drop or two of hydrochloric acid from the end of a glass rod, when a curdy white precipitate is formed which does not disappear on the addition of a small or large quantity of water, being, in fact, indissoluble in this, while most other metals will not be thus affected.

Prescriptions in English.

"If a medicinal substance has any effect except upon the imagination, it will have that effect as much when written in English as in perfect Latin," says the New York Medical Journal. It says doctors still write their prescriptions in Latin—and what Latin!—only because their ancestors did so, and perhaps because it impresses the patient, but the names of the drugs now used "look as formidable in English as in Latin." Therefore it urges physicians to write in English; thus fewer mistakes will be made in putting up medicines.

SPECIAL! TOMORROW

Men, If You Like Good Meals Give Your Wife a Hoosier Cabinet NOW

A well equipped kitchen is one of the natural rights of every good housekeeper. This is the greatest opportunity you will ever have to make your kitchen perfectly convenient, at a bargain price.

You are not the sort of man to expect your wife to go along year after year with no better conveniences in the kitchen than your grandmother had. Men, nowadays, don't cut wheat with a cradle as grandfather did; write letters with a quill, or work in the shop with out-of-date tools. You have things up-to-date in your work. You bet you do, and you expect

Three Square Meals A Day

right along too. Listen, men! Is it fair to the wife to let her get along with old-fashioned woman-killing household equipment when you can have one of these new Hoosiers delivered tomorrow for only \$1? Of course not. You mean all right. You would like to have a convenient kitchen.

Just Hand Us A Dollar

We will put one of these five new Hoosiers in your home at a price so low you will think we are cheating ourselves. The Hoosier Company let us make these prices for one week to introduce these new models. They are so far below the market standard simply because enormous Hoosier sales have made big factory savings, and your wife gets the benefit. Send her one of these at our risk.

The New Hoosier Beauty

—the National Step Saver; most complete and most practical kitchen cabinet ever made; most popular cabinet in the world.

The New Hoosier De Luxe

—all white enamel inside and out—a kitchen cabinet of remarkable beauty.

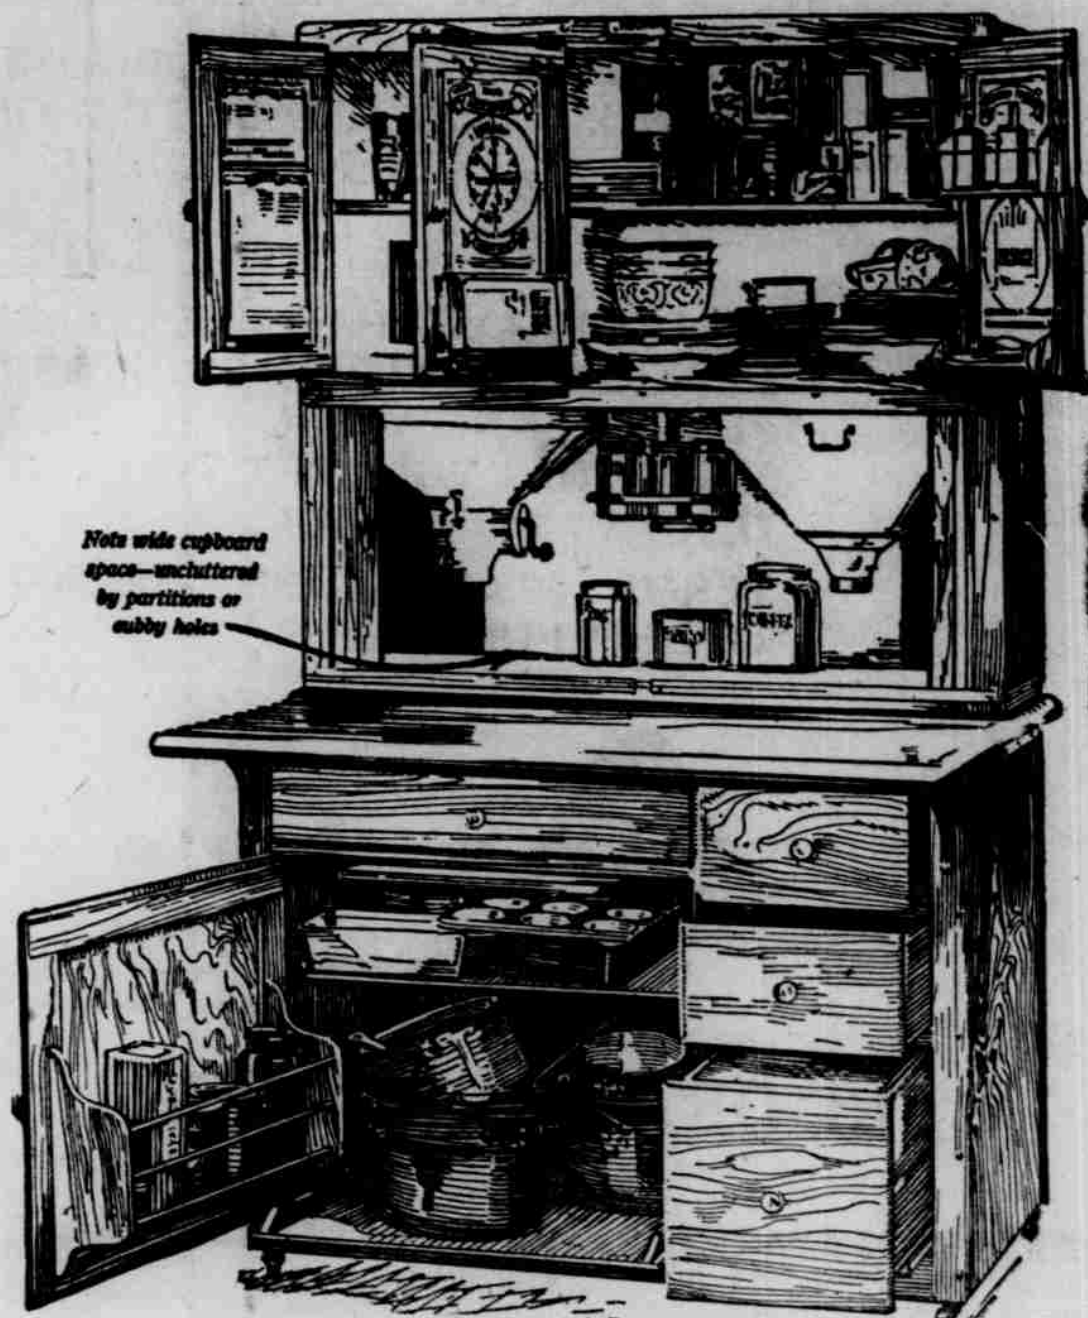

SURPRISE HER

Send one of these out tomorrow sure. Come in early before some of these styles are gone. Just a dollar now; then a dollar a week for a few weeks. That is all. If she isn't delighted, we will take back the cabinet and hand back your money with a smile. Do this much for your wife NOW. You owe it to her.

NATIONAL PAY-UP WEEK INAUGURATED

A NATION-WIDE MOVEMENT TO INDUCE PEOPLE TO PAY THEIR DEBTS DURING THE WEEK OF FEBRUARY 21-26.

What promises to become an annual national event has been inaugurated as National Pay-Up Week, February 21-26, inclusive.

Credit is one of the great assets of our present-day system of business. But like many another good thing, it is sometimes abused and overdone; and because so many people are careless about paying their accounts, there are millions upon millions of dollars in outstanding accounts in this country today that could be paid without inconveniencing the debtor, and if all these millions of dollars were put into circulation during one week, there would be the greatest week of prosperity ever known in this country.

While credit is a great thing, it at the same time becomes a tax when

abused. The man who does not pay his debts pays a penalty or tax every time he buys a dollar's worth of merchandise; but not only must he pay this tax, but the man who pays his debts is compelled to bear his share of this unjust tax—a tax collected in increased price on the commodities of life occasioned by the failure of the debtor to pay his bills.

It is often said that the customers of the retail merchants who pay cash pay more for their merchandise than they should, because they have to pay for what a deadbeat gets without paying, and there is much truth in the statement, too—the man who pays his bills, pays cash, does really pay more for the commodities of life than he should pay because so many do not pay.

National Pay-Up Week had its beginning in the little city of Waukon, Iowa, a county seat of but little over 2,000 population at the end of a little railway in the northeastern part of the state of Iowa. Waukon is a beautiful little city, and a busy business center, but the people of that community are like the people in many another town and community—that is, some of them have, during the past years, bought goods for which they never paid, until

the week of January 9-15, 1915, the principal of the high school, who happens to be secretary of the commercial club, suggested that it would be a good thing for Waukon to have a day of reckoning, or rather, a week of reckoning. The idea appealed to the business men of Waukon, more particularly to the merchants who had considerable money in outstanding accounts. So the week of January 9-15 was advertised as Pay-Up Week, and during that time in this little city, over \$50,000 in old accounts was wiped off the books of the local business houses.

Everybody seemed to join in the spirit, and consequently all found it easy to pay their debts. And it is needless to say that prosperity reigned in that town, for it means something to a town of 2,000 population to lift a debt of \$50,000 in one week's time, and especially when part of the debt is so old that it has been considered uncollectible.

The results of Pay-Up Week at Waukon were so good that the Merchants Trade Journal, a national magazine read by retail merchants in every town of any consequence in the entire country, told its readers of the success of the Waukon people in pay-

ing their debts and urged business men in other towns to give greater attention to their collections, and soon other towns began trying the plan—all with splendid results. And now the entire country seems ready for this extraordinary event of National Pay-Up Week.

A good slogan to be used from now till National Pay-Up Week would be, "You pay your bills—I will pay mine, February 21-26."

HELD FIRST CARD PARTY OF SEASON ON THURSDAY

The ladies' Auxiliary of the German-American society held the first card party of the season in the club rooms in the Arcade building Thursday afternoon from 3 to 5 o'clock. There was a good attendance of members and quite a number of visitors were present. The game enjoyed was 500 and there were two prizes for members and two guest prizes. Mrs. R. W. Ball, of the Lyndhurst hotel, won the first prize for members and the first prize for guests was secured by Mrs. Fred Stevenson, of Holton, Maine. At the conclusion of the cards, refreshments of coffee and cake were served and a pleasant social time enjoyed.

THE HOUSEBOAT MIAKKA
MADE BRIEF STOP HERE
The houseboat Miakka of Philadelphia, made a short stop in Daytona the forepart of the week, tying up at the city dock on Monday. The Miakka was bound for Boca Grand on the Gulf Coast and had on board her owner, T. E. Allison, and wife and Dr. Charles Schoff who has a winter home at Boca Grand. The Miakka is in command of Capt. H. S. Kerner and is a new boat, 43 feet in length, built at Camden, N. J.

Obvious.
Bob—"Why does a fat man always wear a plaid vest?" Harley—"To keep a check on his stomach, I suppose."

Poor Henry.
"It is quite clear that Mrs. Peck is the ruling power in that household." "Yes, indeed. Poor Peck isn't even recognized as a belligerent."

Uses of Gypsum.
Crude gypsum is used in Portland cement manufacture, for soil dressing as an adulterant in flour, sugar and baking powder, and in the manufacture of crayons. Blocks of clear, white gypsum called alabaster are used by artists and sculptors. So it may be seen that ancient Egyptians were aware of the use of one of our most valuable modern materials when they plastered the commodious sides of old Cheops with gypsum.

EAST COAST CANAL WAY MUCH SHORTER THAN ST. JOHNS ROUTE

St. Augustine, Dec. 3.—There was a large number of prominent men present and a keen interest manifested at the special meeting here under the auspices of the chamber of commerce.

One of the prime objects for which this meeting was held was to hear addresses and take action looking to the continuance of the East Coast canal and to urge the federal government to take over this important waterway.

Rev. Barton B. Bigler, who represented the St. Augustine chamber of commerce at the recent convention of the Atlantic Deeper Waterways association held at Savannah, made an interesting report on this convention and described in detail the objects of this association in securing a complete inland waterway all along the Atlantic coast. He spoke of the prominent delegates present and of the able addresses which were delivered. Dr. Bigler called attention to the important link of this inland waterway which the Florida East Coast canal will form.

The principal address of the meeting was made by Secretary H. L. Hamilton of the Florida East Coast Waterway association. Secretary Hamilton has made a thorough and exhaustive study of this inland waterway matter and during his remarks he showed many reasons why the federal government should decide to follow the present canal instead of utilizing the St. Johns river as the northern portion of the canal through Florida. Mr. Hamilton displayed a comprehensive chart of the present canal and also on the same chart was shown the route by way of the St. Johns river. He showed where the present route would be some eighty-six miles shorter than by way of the river, also that the river is now navigable, so that the people living along it would not be further benefited by the government shifting the canal route along it. Many other reasons were advanced by the speaker in favor of the present canal and he urged that St. Augustine send a strong delegation to the hearing to be held before the United States States engineers in the near future at Jacksonville.

Mr. Hamilton's address was heartily

received and he was given a vote of thanks for his interest in coming to St. Augustine to deliver this interesting address.

NO PLACE LIKE THE EAST COAST OF FLORIDA

H. S. Tompkins, when writing recently for change of his copy of the Gazette-News from LaSalle, N. Y., to Ormond, added: "I have been over the United States and its boundaries, north, south, east and west and there is no place like the East Coast of Florida for me, and I know every inch of it from Jacksonville to Miami by motor boat, automobile and train. I like Daytona well, but I like Ormond better."

Happiness.
Money will not procure happiness, but happiness will help procure money. Happiness makes every task a pleasure and every worker optimistic, and an optimistic worker at a pleasant task can perform it in no way but well. Happiness is not only its own reward, but it is an irresistible magnet which is forever drawing unexpected rewards. And happiness can know no evil; evil happiness is a contradiction of terms. Happiness is a religion in itself. He who has happiness has jumped just over the very goal of life.—Judge.

CONGREGATIONAL CHURCH SERVICES NEXT SUNDAY

Sunday school at 9:45 a. m.
Morning service at 1 o'clock. Sermon topic: "Blessed Reciprocity." Christian Endeavor is called to meet at 6:30, fifteen minutes earlier than regular time. The evening church service will begin at 7:15 instead of at 7:30. The reason of the earlier hour is that the pastor, who has a part in the Elks' memorial service, may be at the opera house for his part. We believe this arrangement will not inconvenience any of our church goers and will give all an opportunity to attend at the close of our regular service.
WM. J. DREW, Pastor.

Munchausen Tales.
"The Travels of Baron Munchausen," as we have them, are a compound from a great variety of sources. The first installment, which professes to be based on the real baron's own tales, is scarcely a quarter of the whole, and even this has been traced in great part to various German, Italian and Portuguese origin. Afterward the author cribbed avowedly from Lucian, and added a second volume intended as a satire on Bruce's "Travels." Most of the early editions were entitled "Gulliver Revived; or, The Vice of Lying Properly Exposed."

Gasteam Heating by the GARWOOD RADIATORS

LATEST METHOD OF HEATING FOR YOUR HOME — MORE PRACTICAL THAN STEAM OR HOT WATER SYSTEMS. Costs less to install, cheaper to operate than either coal or wood. No furnace. Each radiator an independent plant. No dirt. No attention required. Automatically cuts down the gas when too hot.
IF YOU ARE WILLING TO BE SHOWN, phone 120 green and we will be glad to figure with you. Each radiator guaranteed.

DRAINAGE PROJECT
AGAIN ATTEMPTED**

Believing that the breeding of Three-bell lampraise is an absolute necessity and that if the water can be kept off the marshes during the wet season the lampraise used will be almost as good as the best stream trout and trout growing anywhere in the state of Florida, the committee of land to the lampraise have started another effort to form a drainage district, and this time the effort shows every indication of being successful.

An effort to force a discharge of the lake to take to the southern terminus west and south of New Haven, involving from Tupperville creek to the head of the Indian river, was made in 1911 but this effort was dropped until the getting cleaned and closed at that time were better protected to the head of nearly considerable

At that time the effort was made on the basis of a majority of the group within the proposed district, and it is stated that some of the least responsive owing large tracts within the limits of the proposed district declined to support the proposition and the effort to get a majority of the acreage for the district was abandoned.

During the legislative session of 1979, however, the old design for the amended is a subject of particular interest and one of the particular. It is stated, that it is possible to find a design which is based on the principle of a sequence of the series of lines.

across its proposed district. Under this provision it is now proposed to make a second effort to form a four-seat district formed to vote in the study of Trenchard's statements and hypotheses and theories of individualism and socialism to come across the state water as all seasons of the year.

For the purpose of determining the best way to settle when the business of a special dividend shareholder and giving the employees of the company are interested in the matter, a position that working was held. However, after he being a full and complete member, we made up of representatives from the

It was noted that the nestling in section 1001 at morning glories F. W. State was made temporary chairman and M. B. P. Hager was named as Vice

GERMANY IS READY FOR ECONOMIC WAR

Oil And Grease Are Scarce

Butter is in a position to push things up to the very highest market bid—see, for instance, the Butter and Other Auctioneers' list on the left.

If there is an economic war, as the efforts have said, the institutions are strongly opposed to fight it on the grounds that it is doubtful whether in any other country it would be possible to organize such a general mobilization for the saving of their institutions, and that the use of institutions is about to overcome the effects of the British war.

University is a teaching staff of 200 teachers. What do the teachers sign up for? A second-tier wage committee of 200 staff and 100 faculty members to which the position may be moved? It promises work changes on how the staff in the basic curriculum would be organized. They could be used for the maintenance of universities, and a review in the College of Arts and Sciences.

But as to whether that "old school" belief of Sweeney will benefit some, others, or neither, has implications you need, provided that the training continues, until that the Sweeney have not shut off a communication channel, some "collective life" emerges," as predicted earlier. In this sense, Sweeney is said to be "trapped" with what others, the "second" version, the

Indifference from those things.
When the "oil and fat" committee is actually advised the nation's average stomach is that kind of indifferent to the suggestion of food it should eat at the

TURNBULL HAMMOCK DRAINAGE PROJECT AGAIN ATTEMPTED

The New Smyrna News this week says:

Believing that the draining of Turnbull hammock is an absolute necessity and that if the water can be kept off that section during the wet seasons the hammock land will be shown to be one of the best citrus fruit and truck growing sections of the state of Florida, the owners of land in the hammock have started another effort to form a drainage district, and this time the effort shows every evidence of being successful.

An effort to form a drainage district to take in the hammock territory west and south of New Smyrna, running from Turnbull creek to the head of the Indian river, was made in 1909, but the effort was dropped and the petitions circulated and signed at that time were never presented to the board of county commissioners.

At that time the effort was made on the basis of a majority of the acreage within the proposed district, and it is stated that some of the land companies owning large tracts within the limits of the proposed district declined to support the proposition and the effort to get a majority of the acreage for the district was unsuccessful on this account.

During the legislative session of 1915, however, the old drainage law was amended in a number of particulars and one of the particulars, it is stated, makes it possible to have a drainage district formed on petition of a majority of the owners of lands within the proposed district. Under this provision it is now proposed to make a strong effort to have a drainage district formed to take in the whole of Turnbull hammock and have ditches and laterals of sufficient size and number to carry away the surplus water at all seasons of the year.

For the purpose of discussing the best way of going about the forming of a special drainage district and getting the sentiment of the persons most interested in the matter, a preliminary meeting was held Monday night in Dohn's hall and this gathering was made up of representatives from Oak Hill, Ariel, Hawks Park and New Smyrna.

In order to get the matter in some kind of working shape F. W. Hatch was made temporary chairman and R. B. F. Roper was named as tem-

porary secretary and it was decided to hold another meeting in Dohn's hall Monday night, December 13, and a strong effort will be made to have every person owning land within the proposed district or interested in the matter attend this meeting. At that time a more permanent organization will be formed and definite steps toward having petitions prepared and circulated will be taken.

In 1909 preliminary surveys of the proposed district were made by D. Z. and C. M. Rogers, civil engineers, of Daytona, and an estimate on the proposed work was given at \$132,000 for clearing the right of way and excavating one main ditch from the vicinity of the head of Turnbull creek to the head of the Indian river and the other outlets and laterals.

In this preliminary survey and estimate it was proposed to dig one main ditch approximately 50 feet wide at the bottom, with a cut-off from about the mouth of Cow creek to the Indian river near Hawks Park, and laterals every quarter mile. The territory within the proposed district covered about 28,000 acres and the estimated cost was approximately \$4.50 per acre.

It is now proposed to use the preliminary surveys made by Messrs. Rogers, perhaps enlarging them to some extent, and with the idea of making three outlets, one into the head of Indian river, one into Turnbull creek and one through a cutoff to the Indian river, using the present south canal or digging a new outlet further to the south.

The idea in forming the drainage district is to have these ditch outlets excavated and issue bonds to pay for the work, assessing benefits and damages to the various tracts of land, as provided in the new state law.

Dreams.

Few people, if any, sleep without dreaming, and even on the basis of only one dream a night this would mean over seventeen thousand dreams for each person fifty years old. Yet few of us can recall even seventeen occasions in which a coming event has been forecasted in a dream. The prophecy that comes true is remembered because the actual occurrence brings to memory the concepts in the dream; the others are forgotten.

Peculiar Use for Granite.

In some portions of Switzerland granite is so plentiful that it is used for telegraph poles.

Cuba Uses Many Raisins.

Cuba is the greatest consumer of raisins among the Spanish-American countries.

GERMANY IS READY FOR ECONOMIC WAR

All Supplies Carefully Preserved to Meet Any Emergency.

OIL AND GREASE ARE SCARCE

Kaiser Is in a Position to Push Struggle to the Very End—Will Harvest Sunflower Seed, Use Substitutes For Butter and Other Food—Dentists Use No Gold.

If this is an economic war, as has often been said, the Germans are seriously prepared to fight it on the economic field. It is doubtful whether in any other country it could be possible to organize such general campaigns for the saving of rare materials and for the use of substitutes in order to overcome the effects of the British sea blockade.

Germany is running short of oils and fats. What do the Germans organize but a semi-official war committee of oils and fats, which devises means by which the problem may be solved? It consults with chemists on how the fats in the horse cadavers found on the battlefields may best be used for the manufacture of ammunition, and a writer in the Cologne Gazette goes so far as to suggest that "the dead bodies of horses will furnish some soap and grease for industrial use and, provided that the sanitary authorities certify that the animals have not died of a communicable disease, some comestible margarine," or artificial butter. In this same journal it has been suggested that there be issued "grease tickets," as well as bread tickets, and that each person should be limited to sixty grams of fatstuffs a day.

Advices Use of More Honey.

What the "oil and fat" committee has actually advised the public, through circulars, is that instead of butter and margarine or lard it should use at the table as much of fruit marmalade or honey as possible. It adds that as honey in its pure state is very expensive an artificial honey made of pure honey mixed with sugar starch, a preparation that is guaranteed not to be bad for the health, should be substituted.

The committee has furthermore recommended a general harvesting of sunflower seeds, which contain valuable oils, and an unofficial adviser to the public recommends the saving of the berries on asparagus stalks, which are usually neglected. They bring a price

of 26 marks for 100 kilograms. Acorns and horse chestnuts are being saved as fodder, principally for pigs. The potato crop has been good, so that the prices are expected to come down. There is now on foot a general scheme for the systematic supply of potatoes to the public so that every one will get an adequate amount.

The private advisers have a great many more schemes than the public committees. The harvest of straw has not been so abundant as might have been expected, owing to the dry summer. The public is advised to save all old paper, which can be used instead of straw for the making of coarse paper. Another adviser would have all old tin cans, oil bottles, vaseline tubes and cold cream jars saved because as they are never wholly emptied by the users the remnants could be extracted by machinery and the fats thus obtained used for ammunition works. Another suggestion has been to the effect that all the kitchen drains and sewer traps should be cleaned, and the fats clinging to the pipes should be extracted. The fats that are usually wasted have for a long time been saved by the German sewage and garbage disposal plants.

Problem of Heat Puzzling.

The problem of heat and light is also pressing. Kerosene is rare and is reserved for the poorer families. Those well to do are expected to burn spirit lamps, and a new concern has been formed that makes burners for them that can be fitted to the ordinary kerosene lamps. They cost 5.25 marks and give a fifty candle power light at the cost of 5 pfennig, or a little over a cent, per hour. The same kind of lamps are prescribed for school and lecture halls.

Precautions against a shortage of copper and brass have been taken. The authorities have a list of the available amount of brass and copper in every family, such as doorknobs, pots and pans, candlesticks, etc., and should they be needed the household goods would simply be requisitioned. The newspapers have contained several warnings that such a procedure is imminent, adding that people should get substitute utensils at once.

The German Association of Copper-smiths has circulated a petition asking that the old works of art made of copper or brass might be saved, and the Society of Opticians has made a similar plea for brass instruments containing lenses. The reply has been formally made that they cannot expect to be heard unless they can show that other metals will not serve as well.

More patriotic and self sacrificing have been the German dentists. The shortage of gold, or, rather, the high value of gold as means of paying for war supplies abroad, has interfered with their work in making new teeth or mending old ones. Therefore the German dentists have resolved not to use gold in their professional work.

WILL SOON BE HERE TO OCCUPY NEW BUNGALOW

Philip Jaqui, writing from Morris-town, N. J., November 29, for change of address of his copy of the Gazette-News to Newark, N. J., and then to Daytona, adds: "Mrs. Gries, Mrs. Jaqui's mother, expects to spend the winter with us at our new bungalow, 311 South Ridgewood avenue. We expect to leave Wednesday, December 8, by the Atlantic Coast Line railway and auto goes by Clyde line to Jacksonville, from which place we expect to drive to your beautiful winter city." Mr. and Mrs. Jaqui have spent several seasons in Daytona in past years and last winter Mr. Jaqui had a large and comfortable bungalow erected on South Ridgewood avenue.

J. J. BUFFTON ILL AT HOME IN CHICAGO, ILL.

Mrs. Stanley Carnell was in Daytona between trains Wednesday afternoon from Ormond for a brief visit with friends. Mrs. Carnell has only recently returned from a visit to her parents, Mr. and Mrs. J. J. Buffton, in Chicago, Ill., and stated that her father had been very ill for some time, but that within the past few days she had received word that he was somewhat better. Mr. and Mrs. Buffton will come South as soon as Mr. Buffton is able to travel and will spend the season at Ormond as they did last winter. Mr. and Mrs. Buffton have spent a number of seasons in Daytona and at one time owned a winter home here. Friends in this city and vicinity will be glad to know that Mr. Buffton is improving and will hope soon to see him.

Gas Was Rather Poor.

Some men were riding in the smoke end of a Pullman car recently when one of them referred in a rather complimentary way to the gas as "that was dished up in his home town." "Yours may be bad enough," reflectively commented a party named Jones, "but I want to say that we have the worst gas of any town in the United States." "That is saying a whole lot," returned the first speaker. "Do you really mean it?" "You just bet a hundred that I mean it!" was the vigorous rejoinder of Jones. "Every morning when we go to cook breakfast we have to pour kerosene on it to start the fire in the gas stove."—Philadelphia Telegraph.

Philippine Cigar Industry.

Cigars are now regularly exported from the Philippines to forty countries.

Optimistic Thought.

Wisdom is better even than great valor.

D.H.S. RETAINED ON LIST OF ACCREDITED SCHOOLS IN SOUTH

Daytona people, particularly those directly interested in the cause of public education insofar as this locality is affected, will be highly pleased, although not surprised, by the announcement that the Daytona high school was lately retained on the list of accredited Southern schools. This information was communicated to Principal H. C. Marks in the following letter received a few days ago from Jno. A. Thackston, of the University of Florida, located at Gainesville:

"My dear Mr. Marks: This is to inform you that the Volusia county high school, located at Daytona, was retained on the Southern accredited list. I congratulate you, your community and county, on this magnificent stand that your school is making. I want to say that Florida stands well up among the Southern states in her list of accredited schools. We will, this year, have thirty odd schools on this list. The commission congratulated us on the splendid showing that we made, and I want to extend the congratulations on to the high schools, who really deserve all of the credit.

"Since this list will not be published until some time in January, and since several high schools were unavoidably delayed in presenting their names to the commission, I am not making public the accredited list, since it probably would not be quite fair to those schools that have not been passed upon for this year. The final list will be made out December 1, and be published, as stated above, some time in January. Of course, if you desire to inform your people locally about the stand that your school has taken, you may feel free to do so.

"Again, I want to thank you for the courtesies that you have shown me, and the Florida commission, in forwarding your report, and in helping us in every way that you possibly could in keeping your school on this list.

"Cordially yours,
"JNO. A. THACKSTON."

Something New.

"The single skull race!" exclaimed an excited old lady, as she laid down the paper. "My gracious! I didn't know there was a race of men with double skulls!"

"I sell the earth"

Well located in Daytona there is a 5 room house, with bath and modern conveniences—furnished and ready for you to live in.

It would cost you \$2,200.00 to duplicate it, yet you can buy it for only \$1,700.00 — and \$350. will give you possession, then \$25.00 per month for a while pays for it — easy? My address is still

PORT ORANGE.

PORT ORANGE, Dec. 1—Grandma Pope who has been on a visit to points in Ohio for several months is again with her daughter, Mrs. Tribble.

Mrs. McKaslin, daughter of Mrs. Tribble, her daughter, Mrs. Marguerite Madding, and the latter's husband, who have been spending several weeks here have returned to their homes in Ohio.

Mr. and Mrs. George Bacon, and their daughter and her husband, Mr. and Mr. Frank Calhoun, who have been spending some three weeks with Mr. and Mrs. J. M. Pool very pleasantly, started on Tuesday to motor to their home in Mississippi. They put in full time sightseeing and fishing, and were very successful in bringing home the fish, and will have pleasant thoughts of the Halifax country.

Mrs. Wm. Smith and Mrs. Medaugh, of Janesville, Wis., are occupying the small Cory house. Mrs. Smith is an old friend of the Corys.

The city fathers have rented the office in the Merritt building and will use it for council meetings.

The Port Orange Telephone Company franchise passed on third reading Tuesday night at a special advertised meeting of the town council. Forty-nine of the 100 shares of stock have been subscribed for by about a dozen parties who have taken from 1 to 11 shares each. The balance of the shares are for sale and it is hoped that many will take a share or two and help to make this project a success and help the town along.

Miss Addie Vinzant of DeLand accompanied Miss Lena Sparkman home to spend Thanksgiving and look after some business matters.

J. L. Pattillo has had his Ford remodelled into a nifty delivery truck. Ed. Stover doing a very nice job of work, as is his custom.

W. C. Erhardt has erected an iron covered storehouse north of Lyon's lumber yard for packing material for for his orange grove.

Mrs. Mary Dondanville, who has spent the summer months visiting her children in Washington, Illinois and Oklahoma, arrived from Oklahoma City on Monday. She also visited friends at her old home, Verona, Ill., and enjoyed her trip very much and is feeling well.

Wm. Cory is adding a room to his tenant house.

Stephen Findlay came down from Daytona on Wednesday to look over his property interests here and note how things were going.

The winter residents who own homes here and have arrived are busy cleaning up, trimming trees, etc., and making their surroundings more attractive for their stay here.

The marriage of Miss Edna Kisor and Dwight Tribble came as a surprise to their many friends here who have only the best wishes for their future happiness.

The "Good Times Club" had their fortnightly meeting on Wednesday at J. B. Case's where they plan to meet this winter.

C. M. Rogers returned this morning from a short business trip to Cocoa.

Mrs. A. M. Harrison has been spending the week in Orlando with Mrs. James Kincaid and family, having accompanied Mrs. Kincaid to Orlando last Sunday.

Swine in Old London.

We hear much today of the dangers of the London streets, but we are spared some of the perils of an earlier age, says the London Chronicle. The recently published Calendar of Coroners' Rolls for the City tells how the many swine wandering about the streets were once London's greatest nuisances. In 1322 an inquest was held on a child who was attacked in her cradle by a pig which had wandered in through the open door of her parents' shop. And a little earlier letters patent were issued to an infant who lost an ear from the same cause. The letters certified the cause of the accident, lest later on the uncharitable should say that the ear had been cut off in the millery by the knife of the law.

Through the Looking Glass.

If you listen to two men discussing eastern races—the Chinese in particular—you will invariably hear them remark with that weighty tone of finality in which people are wont to deliver their obiter dicta: "The Chinaman is an enigma, an insoluble mystery; behind his impenetrable mask there lurks we know not what curious variant of the human race." But does it ever occur to us that in the "barbarian" or "foreign devil" the Chinaman finds a problem of even greater perplexity? The fact that all our books begin at the wrong end and that our lines are printed horizontally, instead of vertically, is to him overwhelming evidence of the topsy-turviness of our minds; that we shake a woman by the hand is, in his eyes, most unseemly; while our dancing, with its lack of dignity and stately grace, suggests to him nothing less than a war dance of savages. The practice of walking with a stick shows is to be in very sooth a most ferocious and uncivilized people, for who would carry a stick save for the purpose of beating innocent folk?

GARDINER'S

IN HOLIDAY SPIRIT NOW

All through our store it is evident that the holiday season is rapidly approaching.

Large stocks of new goods are on the counters and more are arriving almost daily.

IT IS A PLEASURE TO THE CUSTOMER TO CHOOSE EARLY AND UNHURRIEDLY FROM FRESH STOCKS THAT ARE SO FINE AND OFTEN SO EXCLUSIVE.

IT IS A SATISFACTION ALSO TO KNOW THAT THE PRICES AT OUR STORE ARE ALWAYS THE LOWEST PRICES.

TO THOSE WHO HAVE A FRIENDLY INTEREST IN OUR STORE WE BEG TO SAY THAT BUSINESS WAS NEVER SO GOOD AT THIS SEASON OF THE YEAR AS NOW — AND THAT WE BELIEVE WE ARE THE BEST EQUIPPED IN OUR HISTORY TO GIVE OUR CUSTOMERS THAT DISTINCTIVE AND EXCELLENT SERVICE TO WHICH THEY ARE ENTITLED.

Many of our customers are taking advantage of our ability to help them get ready for Christmas. . .

****FOR SALE**—5 passenger Auto, \$250. Daytona Beach Garage. 3-2t

W. E. Ballough was a Titusville visitor Wednesday and Thursday of this week.

Mrs. J. W. Reilly of North Beach street went up to Jacksonville Thursday for a brief visit with her daughter, Mrs. J. T. Barnes.

*The gift from Her to Him—a vest—Kodak from LeSesne's.

C. M. Rogers returned Wednesday morning from Cocoa and left again in the afternoon on a short business trip to Jacksonville.

Mrs. C. W. Wilder and daughter-in-law, Mrs. W. W. Wilder, were Jacksonville visitors from Tuesday until Thursday of this week.

J. H. Sullivan arrived Thursday afternoon from Liberty, Ky., and is visiting his son, W. E. Sullivan, president of the First National bank.

*Brass Goods and Artistic China at Dick's Place on Beach street.

J. H. Rafferty, Florida passenger agent of the Georgia Southern & Florida railway, was a Daytona visitor and guest at the Hamilton hotel from Tuesday until Wednesday of this week on his way to points on the lower East Coast.

*COMFORT SHOP—Marinette Preparations. Full line of hair goods, Shampoo and Facial Massage, CHIROPODY AND MANICURE, Katherine H. Miller, 20 Beach. w.t.f.s.

Mrs. Robt. McKay's friends will be pleased to know that she expects soon to be able to be out again. Mrs. McKay has been confined to the house for nearly a week by a painfully strained or sprained ankle as the result of a misstep.

*FOR RENT—A four room modern flat with all modern conveniences. 17 N. Palmetto. w. t. f. s.

J. M. Pryor of Owenton, Ky., who has spent the two past seasons in Daytona, arrived Thursday afternoon to again spend the winter and is located at the La Cross Villa. Mr. Pryor has made many friends here who will be pleased to learn of his return for the season.

*Hand-painted fired glass at the Woman's Exchange. w.t.f.s.

Mr. and Mrs. W. C. Rankin arrived Wednesday from Philadelphia, Pa., and are guests at the Cedars on Cedar street. Mr. Rankin is the manager of the Philadelphia branch of the Carborundum company of which F. W. Haskell of Niagara, N. Y., who has spent several seasons here, is the president.

*Just received, the finest line of Portrait Frames ever shown in Daytona. LeSesne's Kodak Place.

Wm. R. Babington arrived Sunday for a visit of about two weeks with his wife and children and his mother, Mrs. M. Babington, at their home on Bay street. Mr. Babington, who is employed in railroad construction work, came here from Savannah, Ga., but will go from this city to Green Pond, S. C.

*Reed, pine-needle and wire-grass Baskets. Woman's Exchange. w.t.f.s.

Dr. W. E. Michael arrived Wednesday evening from Factoryville, Pa., to spend the season and for the present is with his brother, D. A. Michael, and wife, at their winter home on South Palmetto avenue. Dr. Michael was a Daytona visitor last winter also and owns a house and quite a plot of ground on South Ridgewood avenue.

*Hand-made novelties at the Woman's Exchange. w.t.f.s.

Rev. Dr. Robt. McKay, rector of St. Mary's Episcopal church of this city, will hold services every Sunday in St. James Episcopal church in Ormond during the absence of the regular rector, Canon J. M. McGrath, who has been detained North by the illness of his little granddaughter. Dr. McKay also has charge of Grace Episcopal church in Port Orange and will hold services there every alternate Sunday in this month.

*Oriental and Domestic Novelties and Curiosities at Dick's Place.

Mr. and Mrs. Geo. W. Golden, of Detroit, Mich., who have been guests for a time at the Morgan hotel, are planning to leave shortly for an automobile trip to Miami, but are so well pleased with Daytona that they expect to return and spend the winter here. Mr. and Mrs. Golden drove through in their car from Detroit to Daytona. Mr. Golden has been enjoying the fishing while here in company with B. P. Smith, of the Morgan.

*For a good shampoo go to Miss Siffirin, over Clark's Drug store. w.t.f.s.

Mr. and Mrs. M. S. Smallwood and three children of Warsaw, N. Y., are located for the season in the Willis bungalow on Emmet street, Palmetto Park, having rented through the Boe & Shafer agency. Mr. and Mrs. Smallwood are making their first visit to Daytona and Florida and are greatly pleased with the city and the southland. They are very comfortably situated, the bungalow being new and conveniently arranged. Mr. Smallwood is an attorney.

*Antique Jewelry, Hand-Made Laces, Needle Work and Embroidered Dresses at DICK'S PLACE on Beach street.

A card received at this office recently from J. M. Lane, South Norwalk, Conn., asked for change of address of his copy of the Gazette-News to Miami and stated that Mr. Lane and Mr. and Mrs. C. H. Vroomer, his son-in-law and daughter, would leave within a few days for the Magic city. Mr. Lane and Mr. and Mrs. Vroomer have many friends in Daytona who will regret that they do not con-

plate their usual stop over in this city on their way south, but will hope to see them on their return from Miami in the spring.

*Our Novelties are hard to beat for Gifts. Dick's Place, on Beach street.

LANDED BIG SEA BASS IN FEW MINUTES' FISHING
W. M. Hill, of Quincy, Ill., who arrived in Daytona last Saturday and expects to spend some time here, has already enjoyed some surprising fishing experiences at the ocean pier. After fishing for about 20 minutes he landed a sea bass which tipped the scales at 31 pounds. Mr. Hill quit right then, feeling that he had had enough sport for one day.

Dr. Lincoln Hulley, president of Stetson university, Mrs. Hulley and their son, Benjamin, Miss Ford and Miss Gates, librarian at Stetson, were guests of Frank Turnquist, of the Daytona high school faculty, at the Magnolia hotel Thursday evening. The party motored over from DeLand. Dr. Hulley being here to deliver his lecture on Tennyson in the public school auditorium as the second number of the lyceum course being given for the benefit of the schools.

Evolution.

Strange things happen in this world. The greatest dealer in mules in the United States was killed in an automobile accident. Think of a man having to do with mules for forty years and coming out unscathed only to be whirled to glory by a pinhead chauffeur.—Houston Post

New Wrinkles for Doctors.

A Cincinnati physician has discovered that epilepsy originates in the intestines, not in the brain. We may next be discovering that appendicitis originates in the brain, not in the intestines.—Cleveland Plain Dealer.

Memory for Faces.

The ability to memorize facial characteristics possessed by the late Sir Hubert von Herkomer is sometimes the result of a system. The later Walter Mackay, for instance, the "Captious Critic" of the Illustrated Sporting and Dramatic News, used to produce most of his speaking likenesses of actors and actresses without taking any sketches at the play. He had a kind of mental shorthand of expression and contour which was founded, so it is said, on Grose's celebrated "Essay on Caricature," published a century ago. This useful knack of invisible snap-shooting also enables illustrated papers to give portraits in connection with trials where the judge has prohibited sketching in court.

The Practice of Kicking.

Kicking, like charity, should begin at home. It ought to be the duty of everybody at home to object, persistently and effectively, to the specific overcrowded street car, the badly paved road, the encroaching doorstep, the neglected yard, the malodorous cesspool, the irresponsible motor car and the reckless railroad—especially if he have any personal part in the maintenance of similar abuses. If the tendency of these evils were rightly apprehended, if a part only of the effort that is expended, presumably, in objecting to generalized, foreign and futile subjects were bestowed on specific and tangible details, if we would forego the emotional pleasure of the impersonal "muck rake" to assail the evil at our very feet—especially if each one of us were careful to avoid offense in matters of the same kind—our country would surely be a much fairer one.—The Unpopular Review.

Strange Rock Dweller.

One of the strangest creatures known to science is the pholas, or boring clam. When still very minute the animal bores into the sandstone ledges at extreme low water, by means of its sharp shell, which is replaced by secretions as it is worn away. It penetrates the rock to a depth of six or eight inches, and hollows out its burrow as it increases in size. Shaped roughly like a top, it could not leave its rock dwelling even if it wished to do so. For food, it depends on the animalcules that float in sea water, which it seizes by its long siphon, or tongue. The pholas is in great demand at the seaside resorts along the Pacific coast, for its meat is very tender and makes excellent soup. The claims are dislodged in great numbers from the ledges by the use of dynamite, although it is possible to obtain them with a pick and crowbar.

Tendency to Exaggerate.

The fisherman is no. the only fellow who is inclined to exaggerate. It seems to be inherent in the race, and whether one is reporting the length of a snake or the amount of money that he made in a bank deal, the chances are the story would have to be toned down and a portion of it eliminated before it would tally with the truth. Most of the exaggerations are harmless, anyway. It really doesn't make any difference whether the fish was two feet long, or only a foot; it is immaterial, so far as the rest of the world is concerned, whether you made a hundred thousand dollars, or only half that amount. Language is only to give one general ideas anyway—the essential thing is that there was a fish, or a profit in the deal. The lives of most of us are only exaggerated egotism; we do not amount to half as much as we imagine.—Columbus Dispatch.

GREAT BALL PLAYER COMING TO ORMOND

A recent issue of the Cincinnati Times-Star contained the following facetious reference to the coming to Ormond this winter of Jimmy Archer, the noted Chicago ball player:

"Jimmy Archer, the famous catcher of the Cubs, will be in the life-saving service on the beach at Ormond, Fla., this winter. Mr. Archer, so it is reported, has written to several of his comrades, inviting them down to Ormond, but it is alleged that all his letters have been to second basemen or shortstops. Apparently Mr. Archer wishes to do his life-saving along the lines to which he, as the greatest of throwing catchers, has long been accustomed. The beautiful heroine will get beyond her depth; she will sink with a flutter, a flurry and a squawk—and Mr. Archer will paddle to the rescue. Will he entwine one arm around the lovely girl, cleave the waves with the other hand and fight his way to safety amid the plaudits of the multitude? Not J. A. He has a better system. When he reaches the sinking belle he will assume his famous squat position, seize her firmly with his strong right hand, and hurl her, straight as an arrow, to his waiting partner—the shortstop or second baseman—who will make a faultless catch, wheel like a flash and toss her home to the beach to complete the double play. Yea, bo, there'll be some great life-saving service round Ormond, Fla., this winter."

Sage Reflection.

"Ef ev'ybody got all he thought was comin' to 'im," said Uncle Eben, "ev'ybody'd be de boss an' dar wouldn't be no one lef' to do reg'lar work."

ALLIES PLAN SPRING BALKAN OFFENSIVE

London, Dec. 3.—With England, France and Italy pledging their aid to Serbia, the next step of the Allies will be a combined offensive against the Teutons and Bulgarians.

Severe fighting probably will continue in the Balkan war zone throughout the winter, but the main offensive movement may not be launched until next spring.

In the meantime the Teutonic forces expect to overrun Montenegro and Albania.

Salonika, Dec. 3.—It is reported that the Allies are preparing to take vigorous action with regard to Greece. It is not known what steps are contemplated.

WHY PAY RENT?

When almost nothing down and nothing a month will buy a brand new modern house on Vermont avenue, Marshall Park.

Inquire of W. W. MARSHALL, owner, or of any agent.

POPE SEEKS ARMISTICE.

Rome, Dec. 3.—Hope that the pope will be able to secure a Christmas armistice between the warring nations is increasing. The vatican is in daily touch with the belligerents, and the pontiff is earnestly endeavoring to remove the obstacles that thwarted his plan last year.

WORK SOON TO BEGIN ON F. E. C. BRANCH?

CUTOFF WILL MEAN SAVING OF MANY MILES IN HANDLING FREIGHT AND PASSENGERS FOR INTERIOR POINTS.

The New Smyrna News this week says:

The connecting link between the Kissimmee Valley line of the Florida East Coast railroad and the main line at New Smyrna is to be built at once, according to information coming from what is considered a reliable source, and the first gang of men on the job will be started on the construction work within the next week.

In railroad circles it is stated that the contract for the construction of this line has been let to Contractor Cook and that the construction work is to be pushed with all possible speed from the time the first shovel-full of dirt is thrown until it is finished and ready. Just how long the work of building the road will take is not stated, but it is believed the work can be finished this winter.

It is understood that the contractor will start the first gang of 60 men to work within the next week and that the construction force will be gradually increased as the work progresses.

The completion of this line will save many miles of hauling, both passengers and freight, to and from the main line and points on the Okeechobee division and will make New Smyrna the most important division point on the Flagler system. When the cutoff is completed trains will be operated to and from New Smyrna instead of Maytown as at present. Under the present arrangement a change from the main line to the Enterprise branch is made at Titusville and another change to the Okeechobee line is made at Maytown. The new arrangement will give a through connection from New Smyrna to the Okeechobee line.

For some time it has been rumored that the East Coast road will ultimately build another cutoff from Okeechobee to make another connection with the main line at Fort Pierce and that during the rush season a great deal of the freight business will be handled over this interior route to the main line at New Smyrna, leaving the line along the coast more free for the handling of the extra passenger trains during the winter time. No intimation is given when this line will be built.

Color of the World.

A man's digestion has a good deal to do with the color of the world when he looks at it. There is more yellow in life from biliousness than from the state of the atmosphere.

FOOT BALL CLAIMS SHORT DOZEN LIVES

Chicago, Dec. 3.—Eleven lives were snuffed out on the gridiron this season. The boys range in age from 11 to 21 years, and were either killed outright while playing football or suffered injuries that resulted in death. Many others were so badly hurt they will be marked or crippled for life.

None of the deaths this season occurred to members of the big, well-trained college elevens. In most cases the players were members of high school, amateur or independent teams where there is little or no system of physical training.

The 1915 death record: Don Applas, 15, of Lima, Ohio, high school student; from injuries received in practice.

Floyd Rollins, 11, of Austin, Texas; blood vessel in head burst.

Roland Capper, 20, of Burnsville, Va.; died two weeks after injuries which caused blood poisoning.

Davis Chambers, 17, of Decatur, Ill.; high school; skull fractured.

Bryan Scott, of Knox college; vertebrae in neck dislocated when head struck knees of St. Louis university player he tackled.

Floyd Gilbert, captain, Grangeville high school, Moscow, Idaho; neck broken.

Pierre Ducos, 17, of Jefferson college, New Orleans.

Paul Moot, halfback, normal school, Charleston, Ill.; blood vessel in head ruptured.

John Groom, 17, of North Braddock, Pa.; internal injuries received when players piled on top of him in "scrub" game.

William Parker, 20, captain, Wheeling, W. Va., high school; hemorrhage of the brain.

Herschel Bruner, 14, Clarkson, Ky.; high school; hemorrhage of the brain. After the death of Bryan Scott, Knox college, by a vote of the faculty and student body, abolished football.

After the death of Pierre Ducos, Jefferson college cancelled all remaining games for the season.

Do This in Your Head.

Here is a simple little mathematical question, the answer to which seems a paradox: "Suppose the earth spherical, and a cable laid along the equator in contact with the surface; its length would be about 25,000 miles. If the cable were everywhere six feet from the earth's surface, how much longer would it be?"

Flour "Aged."

Bakers keep flour for about sixty days as a rule, allowing it to "age" before using. They sometimes point to this fact when bread loaves do not immediately increase in size in sympathy with a decline in the price of the miller's product.

SEVERAL YACHTS ANCHORED AT H. R. Y. CLUB WHARF

At the Halifax River Yacht club wharf at the present time are several yachts here on southern cruises.

The Skipalong, of New York, is owned by J. C. King, and is in command of Capt. Henry Gardner, formerly of Daytona.

The Snapshot, of Boston, Mass., has on board her owner, Capt. H. B. Green, and wife. Capt. and Mrs. Green have been here in several past seasons on their way to Miami.

The Albert Lee, of St. Paul, Minn., with C. W. Ross and family and their guests, Miss Harriet Gammons and W. S. Van Sickle, of St. Augustine, is here on a cruise to Miami.

CHILDREN CELEBRATE BIRTHDAY ANNIVERSARY

A pleasant children's party was held Thursday afternoon at the home of Mr. and Mrs. W. M. Hankins on Ivy Lane in celebration of the fourth birthday anniversary of W. Maxwell Hankins, Jr., when he entertained several little boy companions. The children had a good time at play and also in the enjoyment of ice cream, cake and candies. There was a birthday cake with the appropriate candles. Maxwell received a number of interesting presents and the little guests were each presented with a toy as a souvenir of the party.

To live in Daytona is to enjoy life.
